## AMOUNT OF SUPPLIES AND STOCK ON THE FARM

2 horses, 14 cows, 38 hens, 10 tons ensilage, 30 tons hay, 1½ bags gluten, 1½ bags corn and oat feed, 1 bag crack corn, 2½ bbls. apples, ⅔ bbl. vinegar, 90 bu. large potatoes, 12 bu small potatoes, 15 bu. beans, 38 jars preserves, 16 jars pickles, 1 bu. beets, 10 bu. turnips, ½ bbl. pork and groceries to the amount of \$18.06. On account of there being so little snow, but ½ the usual amount of ice was in the house at our visit and the bill for cutting is outstanding. The usual amount of wood is at the door.

The farm has been carried on successfully the past year under the management of Mr. and Mrs. Thurlow and we feel that it has been well conducted both out of doors and in the house and that the inmates have had good care and kind treatment.

It was deemed advisable to sell some of the hay that had been in the barn for many years as there seemed to be need

of the room to store the growing crop. Mr. Thurlow had the misfortune to lose a good cow soon after he took the farm requiring the outlay of \$50 to replace her. He also lost nearly all of his sweet corn crop by an early frost. Mr. Thurlow was unable to furnish a horse as has been the custom of our previous agents, so we exchanged the separator, for which, we had no use, toward a horse. We were allowed \$50.00 for the separator and paid \$75.00 balance making \$125.00 for the horse. The agent did all of the hauling for the repairs made on the buildings for which we have given him no credit.

There are now three inmates on the farm and the usual number of tramps has been lodged and fed during the year.

We were unable to retain Mr. and Mrs. Thurlow for another year so we have secured Mr. and Mrs. Lewis F. Berry to manage the farm for the ensuing year at a salary of \$350.00.

#### GENERAL REMARKS.

The expense of the poor off the farm has been very little for the past year. Alvin Ayer was taken to the town farm early in the spring, where he died early in the winter.

The set of standard weights and measures has been ordered and sent to the State Sealer to be sealed. The bill has not been received as yet.

The brown tail moth nests have been very numerous this year and the expense of destroying them correspondingly greater. The job is nearly completed and the bills all paid to March 1, 1913. We would advise that the Selectmen be instructed to let the job by contract if they deem it advisable.

The amounts reported due from Turner Center Creamery and Elbridge True have been paid to the Treasurer since closing his books.

At a special town meeting last fall it was voted to appropriate the sum of \$1,000 for the improvement of the highway between Shaker Village and Gray line. The State

promised to apportion \$2,000 in addition from the automobile fund; and Hiram Ricker & Sons agreed to reimburse the town to the amount of \$150.

Work was begun late in the fall and \$694.47 was expended. This work should be completed the coming year.

5 cords of wood have been ordered for the town house and the same amount for the library.

Three insurance policies expire the present month. We have ordered the policies renewed at an expense of approximately \$225 which sum should be raised this year in the contingent expense fund.

We have examined the Treasurer's book and accounts and found them correct.

Respectfully submitted,

CHARLES H. NELSON,

FRANK M. HAWKES,

FRANK W. BERRY,

*Selectmen and Overseers of the Poor.*

## Report of Treasurer

---

1912.		Received of:	
Mar.	11.	John W. True, Treasurer for the year 1911,	\$10,098 44

Shoeing,	4 70
Outstanding for shoeing,	29 76
	————— \$696 81

Respectfully submitted,

FRANK C. MARSTON,  
*Road Commissioner.*

## Report of Library Trustees

---

The Trustees of the Public Library beg to present their annual report: A larger outlay for books has been possible this year, since few repairs or outside expenses have been necessary. This has enabled the purchase of several sets of books of permanent value beside supplying the demand for current literature and books which have only a passing value. As in other years we have made a specialty of supplying a list of books available for the work of the High School, for we believe the aims and purposes of the Library are closely allied with the Public School system, and both should be for progress and enlarged abilities of the entire community for public service. We note with satisfaction an increasing demand for biography and books of travel, and much care and thought has been used in their selection. Their constant use shows the apparent appreciation of the readers. We wish some method might be devised whereby the most distant portions of the town might have the benefit of the Library. Next year the Trustees will find it necessary to expend money for repairs of the building and its surroundings. Some more adequate method for lighting would be greatly appreciated by evening visitors. Much interest has been expressed in the possible collection of some of the valuable and historic relics of the town which in the future will be of inestimable value. An annex to the Library building, or some other plan may make this possible in the future.

The money received by the Trustees is as follows:

Amount forwarded from 1911,	\$48 23
Received from State,	44 40

Received from S. H. Cummings fund,	40 53
Received from fines collected,	4 10
Received by taxation,	424 50

---

Total,	\$561 76
Total expenditures.	\$447 62

---

Amount unexpended,	\$114 14
--------------------	----------

Respectfully submitted,

## School Report

---

*To the Citizens of New Gloucester:*

The following report of the schools for the year ending March 1st 1913, is respectfully submitted:

### SCHOOL BOARD.

The School Board submits its Annual Report:

We have more than held our own in the upkeep of our school property during the past year. The largest single expenditure was made on the school-house at Meadow Brook, which had been vacated for nearly twenty years. The opening of this school called for a thorough renovation and the other members of the Board are grateful to Mr. Day for his successful oversight in making this building compare favorably with others of its class. A thorough overhauling of the furnace at the High School was an unexpected but imperative expense, resulting in practically a new heater. Other repairs were confined chiefly to the brightening up of school-room interiors. A regrettable feature of the years' work was the resignation of Prin. Sullivan after eight years of faithful service. We believe we were fortunate in securing as his successor, Mr. Gay, who comes to us highly recommended. Mr. Sullivan's going also meant the election of a new Supt. of Schools, and Mr. Hunnewell was induced to fill out the unexpired term. An unfortunate condition has been the five changes in superintendency in three years. Excellent work under such a handicap is impossible. A no less serious obstacle has been in too many cases the low average of school attendance. Statutory truancy, (six consecutive absences) is not excusable because of real or fancied wrong. The school exists

for every child of school age, and every absence detracts from its interest and value.

### SCHOOL CALENDAR.

The following calendar has been arranged for the ensuing year:

#### Common Schools.

Spring term begins first Monday in April, continues ten weeks.

Fall term begins Tuesday following Labor Day, continues twelve weeks.

Winter term begins Dec. 15, continues ten weeks.

#### High School.

Fall term begins Tuesday following Labor Day, continues fifteen weeks.

Winter term begins Jan. 5th, 1914, continues seven weeks.

Spring term begins March 9th, 1914, continues fourteen weeks.

Respectfully submitted.

H. L. BERRY,  
LEMUEL S. DAY,  
H. V. BLAKE.

## STATISTICAL.

Number of persons in town between the ages of 5 and 21 years, April 1st, 1912,	335
Whole number attending spring term,	242
Average number attending spring term,	207

## REPORT OF SUPT. OF SCHOOLS.

Assuming office at so late a date, I am unable to say much directly regarding the welfare of the schools in general. During the past year the teachers have tried to bring their schools to a higher level. Nevertheless we may safely say the results are hardly satisfactory in every case.

As you will note in the tabular report, the school at Cobb's Bridge was discontinued at the beginning of the fall term, and the scholars conveyed to Meadow Brook, which was opened at that time. The same thing occurred at the Penney Road school, and the scholars were conveyed to Webber's which was also opened.

Too few of our schools in surroundings, housing and furnishing are up to the standard to which they must be brought if they are to do their best service. We come to realize that better discipline can be maintained in an orderly, tidy and well ventilated room.

There is needed some fitly organized agency to arouse local interest in the local school, to unify it into an effective force for good, and to direct its exercise. There are vital and pressing needs of the schools today, which cannot be met without the systematic, co-operative action of parents, teachers and pupils. The teacher needs to feel the encouragement in doing her best work which may be found in a vigorous and rightly directed interest in her school. Therefore, let us hope for more co-operation between parents, scholars and teachers.

The strongest force in the school is the teacher. She is to inspire and direct every activity of her pupils, whether exercised in getting knowledge, for developing power, or for training for right habits. That this force may be most efficient it must be uniform in action. In this regard there is evident and pressing need of teachers better adapted to the work. In trying to raise the standard of our schools we have many things to confront us.

Let us hope the sun is shining upon a better day than any upon which it has set. It is to dawn upon better days than the one upon which it is shining.

In closing allow me to acknowledge all assistance given me in the difficult task of taking up the superintendency at so late a date, and carrying it forward to the end of the year.

Respectfully submitted,

ERNEST H. HUNNEWELL, *Superintendent.*

### TEXT BOOKS.

The change in Arithmetics which was begun by the former Superintendent has been completed, so that new books are in use in all the schools. The spellers were in very poor condition and a new set has been placed in every school. New basic readers have also been bought. New globes and maps which were much needed have been placed in every school. I would recommend that during the next year the English readers be renewed.

### TEACHERS.

There have been many changes in the teaching staff the past year as the tabular report will show. Of the nine teachers who were in our schools a year ago, only two remain. The causes are various. Most often it is the small salary received. Good work has been done in most of the schools. The teachers as a rule show a strong interest in their work and a desire to improve. Of the eleven teachers who have been employed the past year, three are normal graduates, three have had one year at the normal school, and two have taken summer courses. I strongly urge all of our teachers who have not received special normal training to do so. A high school preparation is not enough and is not intended to be. In accordance with the vote of the town, instruction in music was begun again, and Miss Elizabeth Danforth was secured as teacher for the spring term. She having resigned, Mrs. Margaret Allen was elected to fill the place left vacant. I refer you to her report. The present day education is leaning more and more to practical lines. I hope to see in the not distant future, manual training and drawing introduced into our schools. Why should not your scholars receive these advantages inasmuch as it would be no great burden to any one?

Eyesight and hearing tests were held in all the schools and in defective cases the parents were notified according to law. During the short time that I have acted as Super-

intendent my work has been most pleasant and I wish to thank the teachers, the school officers and citizens for their hearty co-operation.

WALTER E. SULLIVAN.

---

## HIGH SCHOOL PRINCIPAL'S REPORT

*To the Citizens of New Gloucester:*

I herewith submit to you the Annual Report of the High School. At the beginning of the municipal year, which is the spring term of the High School, a slight change was made in the weekly program. As the Principal also performed the duties of Supt. of Schools, Monday was taken as a holiday, and one session held on Saturday. This enabled the Principal to visit the schools and the arrangement seemed satisfactory. During the spring vacation the senior class took the usual trip to Washington, accompanied by the assistant teacher, Miss Pillsbury, a few friends and alumni. The entire class of five members took this most instructive trip. The students took their usual active part in the celebration of Arbor and Memorial days. The graduation exercises were held in the town hall, Thursday evening, June 10. The following were graduated: Daisy Mildred Hackett, Salutatory; Sara A. Chandler, Valedictory; Ada Hammond, Essay, Blanche E. Bonney, Prophecy and Presentation of Gifts; Merton B. Norris, Essay. The Seniors were assisted by several junior parts. The diplomas were presented by Herbert L. Berry, Chairman of the School Board. The fall term began Sept. 3 with an attendance of 57, the largest enrollment in the history of the school. Of this number 11 are Seniors, 5 Juniors, 11 Sophomores, 14 are Freshmen and 16 9th Grade. Clarissa M. Flint, a graduate of Farmington Normal School succeeded Bessie W. Cummings as 2nd Assistant, while Beatrice E. Neal succeeded Ellen M. Pillsbury. Both have shown a strong aptitude for the work, and are successfully carrying

it in their respective departments. Changes in text-books as follows: Wentworth and Smith geometry replaced Wentworth's. Blanchard's Household Chemistry manual was added as an auxiliary in the chemistry course especially for girls. Potter's Caesar for beginners was also added. A goodly amount of laboratory supplies was added to the equipment. I would recommend that new algebras and a change in the English text-books be made next year.

Several of the classes have been favored in being able to attend some of the meetings of the New Gloucester Woman's Club, and Principal and scholars would like to thank the members for the opportunity. By the time this report reaches the citizens, a bust of Longfellow, purchased by the class of 1907, will have been placed in the High School building.

Many attempts have been made to mend the roof but it still leaks. I would recommend that special effort be made to overcome this defect. The walls and ceiling are badly in need of paint. At present the barn built to accommodate the students driving to school, is filled to overflowing. An addition of some kind should be made. Again as last year I would suggest that a room be given by the town to be used as a gymnasium by the scholars. The first floor of the town hall is well adapted for this purpose. Had I remained as Principal I would have added a half year's course in Agriculture to replace either Zoology or Botany. I refer this to my successor. Two entertainments were given by the senior class. Both were successful in every way. I have made a special effort this year to have the attendance of scholars more regular as I realize that failure to pass in studies and lack of interest in the work is often due to irregularity in attendance. Excuses for absence have been required and insisted upon. I am happy to say there is a great improvement as a result of these efforts.

Before this report is printed I will have completed my work here and have gone to other fields. During my eight years among you I have applied myself in a more than ordinary manner to the needs of the school and the commun-

ity in general. I did this because I knew that I had the support of the citizens at large, and that my work was appreciated. I have watched the school grow with an interest and pride that words cannot express. Therefore in leaving it is not without a feeling of sorrow that I am to sever my connection with this school. In leaving, my sincere thanks and grateful appreciation is extended to all of my friends, alumni and students, to the School Board and other town officers.

Respectfully submitted,

WALTER E. SULLIVAN.

---

*To the Supt. of Schools:*

It is a pleasure to me to report that a marked improvement has been made in public school music during the past two terms. During the music period the schools are divided so that the first four grades may have special attention in the first steps in music. A few rote songs of four and five tones have been taught.

The higher grades have been instructed in time, syllable reading, and musical signs from the books.

As the town does not furnish the music readers a request was made that the children provide themselves with the books. The response was very gratifying for now every pupil has the use of a copy during the lesson. Time will prove that far more satisfactory work can be done than when the work had to be copied or memorized from the black board.

The Webber and Bear Brook schools are small and are attended by small children. If these could be put together during the Supervisor's visits it is thought that better results would be obtained. Numbers count, for children are often frightened to hear their own voices.

Having completed the Second Reader the Shaker school is using "The School Song Book." Much interest and pleasure is manifested.

Owing to the fact that music has been taught in the schools but a comparatively short time, too much should not be expected of the High School. Little can be accomplished with only forty minutes' practice a week, but if music can be continued in the rural schools a few years, there will be excellent High School music.

Much pains has been taken by nearly all the teachers to have the children think for themselves. It is an easy matter to sing a note after having heard it sung but repeating in a parrot-like manner is not learning music any more than repeating after another is learning to read.

It is hoped that this great study of school music may be continued. It is an uplift to a community. Music is the language of feeling, a recreation, a means of entertainment and the highest expression of all human emotions.

Respectfully submitted,

MRS. MARGARET L. ALLEN,

*Supervisor of Music.*

## Warrant for Town Meeting

---

*To John A. Haskell, Constable of the Town of New Gloucester, in the County of Cumberland and State of Maine:*

GREETING:

In the name of the State of Maine, you are hereby required to notify and warn the inhabitants of the said Town of New Gloucester, qualified by law to vote in town affairs, to assemble at the Town House in said town of New Gloucester on Monday, the 10th day of March A. D. 1913, at ten o'clock in the forenoon, to act on the following articles viz:

### ARTICLE 1st.

To choose a Moderator to preside over said meeting.

### ARTICLE 2nd.

To choose a Clerk for the ensuing year.

### ARTICLE 3rd.

To receive and allow accounts.

### ARTICLE 4th.

To hear and act on reports.

### ARTICLE 5th.

To see if the town will vote to elect a road commissioner.

### ARTICLE 6th.

To choose all necessary town officers for the ensuing year.

### ARTICLE 7th.

To see what sum of money the town will vote to raise for contingent expenses.

## ARTICLE 8th.

To see what sum of money the town will vote to raise for the repair of roads and bridges.

## ARTICLE 9th.

To see if the town will vote "yes" or "no" upon the adoption of the provisions of Chapter 112 of the Public Laws of Maine, for the year 1907, as amended by Chapter 69, Public Laws 1909, also Chapter 21, Public Laws 1911, and Chapter 183, Public Laws 1911 relating to the appropriation of money necessary to entitle the town to State aid for highways for the year 1913.

## ARTICLE 10th.

To see if the town will raise and appropriate in addition to the amounts regularly raised and appropriated for the care of ways, highways and bridges, the sum of \$500.00 being the maximum amount which the town is allowed to raise under the provisions of Chapter 112 of the Public Laws of Maine for 1907, as amended by Chapter 69, Public Laws of 1909, also Chapter 21, Public Laws 1911, and Chapter 183, Public Laws 1911.

## ARTICLE 11th.

To see what sum the town will vote to raise for the support of schools.

## ARTICLE 12th.

To see what sum the town will vote to raise to keep the school property in repair.

## ARTICLE 13th.

To see what sum of money the town will vote to raise to purchase school supplies.

## ARTICLE 14th.

To see what sum of money the town will vote to raise for free text-books.

## ARTICLE 15th.

To see what sum of money the town will vote to raise for the support of the High School.

## ARTICLE 16th.

To see what sum of money the town will vote to raise for the contingent expenses of the High School.

## ARTICLE 17th.

To see what sum of money the town will vote to raise to keep the cemeteries in repair.

## ARTICLE 18th.

To see what sum of money the town will vote to raise to defray the expense of Memorial Day ; also to see in whose hands it shall be placed to be expended.

## ARTICLE 19th.

To see what sum of money the town will vote to raise to support the Public Library.

## ARTICLE 20th.

To see if the town will vote to complete the work on the Intervale Bridge, and how much money the town will vote to raise for that purpose.

## ARTICLE 21st.

To see if the town will vote to cut down the hill near the house of Eben Nevens, and how much money the town will vote to raise for that purpose.

## ARTICLE 22nd.

To see if the town will vote to accept the mill stones from the first grist mill in town, presented to the town by William P. True, if so how much money will the town raise for placing and suitably marking the same.

## ARTICLE 23rd.

To see if the town will vote to purchase the farm of William P. True, for town purposes and how much money the town will vote to raise for that purpose.

## ARTICLE 24th.

To see if the town will vote to hire a place to keep the town team, and how much the town will vote to raise for that purpose.

## ARTICLE 25th.

To see what action the town will take in regard to the management of the town team in winter.

## ARTICLE 26th.

To see if the town will vote to accept the sum of \$25.00 from Albana P. Burrell to be held in trust, the income of which shall be used for the perpetual care of his lot in Gloucester Hill Cemetery.

## ARTICLE 27th.

To see if the town will vote to allow the Derumquen Council degree of Pocahontas, the use of the town hall at the same price as the Order of Red Men.

## ARTICLE 28th.

To see if the town will vote to allow the Derumquen Council to have a doorway cut in the back wall of the town hall and build a wardrobe over the back stairs.

## ARTICLE 29th.

To see if the town will vote to let the hall for entertainments for charitable purposes for the actual expense.

## ARTICLE 30th.

To see if the town will vote to instruct the Selectmen to contract the destroying brown-tail moth nests in the highway or take any action thereon.

## ARTICLE 31st.

To see how much money the town will vote to raise for fighting brown-tail moths.

The Selectman hereby give notice that they will be in session at their office at said New Gloucester on Monday the

10th day of March, at nine o'clock in the forenoon, for the purpose of revising the voting list.

Given under our hands at said New Gloucester, this 28th day of February A. D. 1913.

CHARLES H. NELSON,  
FRANK M. HAWKES,  
FRANK W. BERRY,  
*Selectmen of New Gloucester.*
